

INDUSTRIAL TRAINING CENTRE SUB-BRANCH STOCKTAKES

Case Study: Industrial – Manufacturing Training Centre

A training centre for industrial manufacturing professionals, required support from RGIS to **complete stocktakes** in 13 sub-branches

INDUSTRIAL TRAINING CENTRE SUB-BRANCH STOCKTAKES

Case Study: Industrial – Manufacturing Training Centre

An institution created by the National Society of Industries and with the aim of giving thousands of young people the opportunity to professionally train in industrial activities; and also in installations, repairs and maintenance for any other economic activity required the support of RGIS.

REQUIREMENT

A training centre for industrial manufacturing professionals, required support from RGIS to complete stocktakes in sub-branches which were further distributed to three warehouses. The customer required the following:

- Location of stock within **13 sub-branches**
- Link stock of sub-branch to corresponding warehouse
- Count items in **pages, units, meters and gallons**
- **Accurate reporting** of stock by sub-branch and warehouse

SOLUTION

The training centre partnered with RGIS to complete the **sub-branch stocktake** project. RGIS carried out the following:

- Scheduled a team of 40 **experienced RGIS auditors**
- RGIS teams covered all 13 sub-branches
- Allocated **84 hours** for the project, including preparation and reporting time

RESULTS

The training centre found that by outsourcing the **sub-branch stocktake** project to RGIS, the following was successfully achieved:

- Accurately counted **10,171** stock items
- The logistics and distribution of stock has been **improved**
- The customer had **complete control** of their stock within the 13 sub-branches

The training centre found by partnering with RGIS, that **10,171 stock items were accounted for** and the **logistics and distribution of stock has been improved**
