

MOBILE PHONE STORE COMPLIANCE AUDITS

Case Study: Retail Services – Mobile Phone Retailer

A mobile phone retailer needed support from RGIS to complete an **audit of the existing stores** to be able to implement new 'smart stores'

MOBILE PHONE STORE COMPLIANCE AUDITS

Case Study: Retail Services – Mobile Phone Retailer

A mobile phone retailer had committed to revolutionise how its customers experience its stores, bringing them an even more intense digital experience. Across the group's stores, the mobile phone retailer was rethinking the experience for its customers, proposing a new way to welcome them in its stores with 'smart stores'.

REQUIREMENT

The mobile phone retailer needed support from RGIS to complete an **audit of the existing stores** to be able to implement new 'smart stores'. New smart stores would incorporate real-life situations and new technology.

The mobile phone retailer required RGIS to provide the following:

- Complete a **compliance audit of all stores**
- The data had to be uploaded to the customer's **workflow management system**
- Minimal communication between stores and corporate headquarters made the audit necessary

SOLUTION

The mobile phone retailer partnered with RGIS to complete the **compliance audit project**, and RGIS provided the following:

- Experienced RGIS teams visited **1,689 stores over a four-month period**
- Audits included **taking photos within all the stores** and completing a **comprehensive questionnaire**
- Retail locations were **carefully audited** so that the same information was recorded in each store, in the exact same way
- RGIS handled the **scheduling, recording of information, and provided a data file** that the customer could easily upload

RESULTS

The mobile phone retailer found by outsourcing the **compliance audit project** to RGIS, the following results were achieved:

- Using the information provided by RGIS, the mobile phone retailer was able to revamp stores to provide a **unique and consistent retail experience**
- RGIS was key in the implementation of the retailer's **new visual merchandising management solution**
- Quick data return in the required format, allowed **insights to be put into action immediately**
- RGIS partnered with the management provider to **ease the transition for the retailer**

By partnering with RGIS, the mobile phone retailer was able to use the **accurate information** provided, to revamp stores to provide a **unique and consistent retail experience**
