SUPERMARKET FIXED ASSET COUNT

Case Study: Fixed Asset Count – Supermarket Chain

A supermarket chain needed to **identify the location of various assets**, due to them being moved between stores without the asset register being updated

RGIS

SUPERMARKET FIXED ASSET COUNT

Case Study: Fixed Asset Services – Supermarket Chain

One of the world's largest food retailers employing over 500,000 people and serving millions of customers every week in Asia, America and Europe, including Great Britain and Northern Ireland required the support of RGIS. The supermarket chain is the largest food retailer in Ireland, with a proud record of investment and job creation, and employ 9000 colleagues across over 170 stores.

REQUIREMENT

The supermarket chain needed to **identify the location of various assets**, due to them being moved between stores without the asset register being updated, so required RGIS to provide the following:

- **Count all assets** in chosen stores
- **Tag new assets**
- **Update the existing asset register** with correct data and locations

SOLUTION

The supermarket chain partnered with RGIS to complete the **retail asset count project**, and provided the following:

- Scheduled a team of three **experienced RGIS auditors** per store
- **Training completed** a week prior to the event
- **Verified existing assets**
- **Checked locations** were correct on the asset register and **updated accordingly**
- **Tagged new assets**

RESULTS

The supermarket chain found by outsourcing the **retail asset count project** to RGIS, the following results were achieved:

- **Identified old assets** had not been removed from the asset register
- **Updated asset register** with the new assets that had not previously been added
- **Identified assets the customer was unaware of**, which could then be utilised in other stores
- The customer **saved money,** by not over-ordering assets

By partnering with RGIS, the supermarket chain was made aware of **all available assets and locations**, which could then be utilised, **saving money by not over-ordering assets** in other stores
